About Kender Energy Ltd.:

Kender Energy Inc. ("Kender") is an alternative energy company, developing and commercializing energy producing devices, stemming from renewable sources. Its main product, the Kender solar panel, is a helium closed-circuit solar panel. This system produces electricity, by extracting the thermal energy from the sun and the surrounding air. As a result, the system only releases cold air. The early applications for Kender's technology are energy production for homes, buildings and the electricity network. The company's Website is [www.kendersolar.com](http://www.kendersolar.com).

Safe Harbor Statement:

Certain Statements in this press release constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the company to be materially different from any future results, performances or achievements expressed or implied by such forward-looking statements. The forward-looking statements are subject to risks and uncertainties including, without limitation, changes in levels of competition, possible loss of customers, and the company's ability to attract and retain key personnel.
