GENEVA, Sep 09, 2009 (MARKETWIRE via COMTEX) -- Kender Energy Inc. (PINKSHEETS: KNDR) today announced that it has published its corporate video profile on its website at [www.kendersolar.com](http://www.kendersolar.com) and more precisely at the following link: <http://www.kendersolar.com/index.php/Kender-Corporate-Video.html>.

### About Kender Energy Inc.:

Kender Energy Inc. is a development phase company active in the field of solar energy. Its present prototypes of solar panels are being developed into a full-scale solar energy production system. The particularity of the Kender solar panel system and technology is to allow, via a closed circuit of gas (usually helium), to create a heat exchange with the sunlight and the air from the environment. The exchange generates the spinning of the helium gas in the closed circuit, propelling a turbine, which produces electricity in a 100% clean and renewable process. The system's main advantages are that it is efficient, cheap in production, and modular. The company is based near Geneva, Switzerland. Its Website is [www.kendersolar.com](http://www.kendersolar.com).

### Safe Harbor Statement

All statements in this news release that are other than statements of historical facts are forward-looking statements, which contain our current expectations about our future results. Forward-looking statements involve numerous risks and uncertainties. We have attempted to identify any forward-looking statements by using words such as "anticipates," "believes," "could," "expects," "intends," "may," "should" and other similar expressions. Although we believe that the expectations reflected in all of our forward-looking statements are reasonable, we can give no assurance that such expectations will prove to be correct. A number of factors may affect our future results and may cause those results to differ materially from those indicated in any forward-looking statements made by us or on our behalf. Such factors include our limited operating history; our need for significant capital to finance internal growth as well as strategic acquisitions; our ability to attract and retain key employees and strategic partners; our ability to achieve and maintain profitability; fluctuations in the trading price and volume of our stock; competition from other providers of similar products and services; and other unanticipated future events and conditions.
